Create a new ticket

Describe the problem — the IT team will be notified immediately.

Subject *

VPN disconnects every 10 minutes

One short sentence describing the problem.

Category *

Network

Priority *

High — blocks my work

Description *

Since this morning, the VPN connection drops roughly every 10 minutes and reconnects on its own. It happens on both Wi-Fi and cable. I already restarted the laptop twice.

Include what you tried, when it started, and any error message.

Attachments

Drag & drop screenshots or files here, or [browse](#)

Submit ticket

Before you submit

Quick checks that solve most issues:

Restart the app or device

Check the network cable / Wi-Fi

Search the knowledge base

After submitting, you'll get a reference number (e.g. **TCK-2026-0148**) and a notification when an agent is assigned.

ONOmar NasserIT Support Agent10:02 AM

Hi Lara, thanks for the screenshot. Could you tell me which VPN profile you're using — "IDS-Main" or "IDS-Backup"? Also, does it drop when you're on a video call, or randomly?

LKLara KhouryYou10:15 AM

I'm on "IDS-Main". It drops randomly — even when the laptop is idle.

Hi Lara, thanks for the screenshot. Could you tell me which VPN profile you're using — "IDS-Main" or "IDS-Backup"? Also, does it drop when you're on a video call, or randomly?

LK

Lara Khoury

Employee

10:15 AM

I'm on "IDS-Main". It drops randomly — even when the laptop is idle.

ON

Omar Nasser

INTERNAL NOTE

10:31 AM

Gateway logs show her session token expiring early — looks like the same cert issue as TCK-2026-0102. Escalating to network team if renewing the cert doesn't fix it. **Not visible to the employee.**
